Current plan 2006-11

West Yorkshire Local Transport Plan (LTP2) 2006-2011

West Yorkshire's first Local Transport Plan set out a programme of improvements to the region's transport system from 2001-6. [Download a copy of West Yorkshire's Local Transport Plan 2001-06 from the document archive.](#)

The first plan was replaced in 2006 with the second plan, which is currently being put into action, addressing issues around Accessibility, Air Quality, Congestion, Safer Roads and Asset Management. Its aim is to create a more integrated transport system that supports economic growth and enhances the quality of life of people of West Yorkshire. [Download a copy of West Yorkshire's Local Transport Plan 2006-11 from the document archive](#) or use the menus on the left hand side and below to explore its themed sections and reports.

A new plan to replace the current one in 2011, which will be more flexible and run to 2026, is currently being prepared. [Go to MyJourney- get involved to find out more about the latest plan and how you can help shape it.](#)
